## FAQ's on the Stew Challenge:

**Q: Is this invitation considered a "gift" to legislators and does it have to be reported on the Ethics Commission report?**

**A:** NO! BIA-Hawaii inquired with the Ethics Commission as to whether or not the acceptance of the invitation meant that a gift was made to the Legislators and if they had to report it. The Ethics Commission said that this would be considered "goodwill lobbying" on the part of BIA-Hawaii (not a gift) and that only BIA needed to report the total cost of food and beverages for all legislators and their staffs. Legislators do not have to report anything since the cost of the food and beverage would be much less than \$25 per person.

**Q: Does this mean I have to make stew?**

**A:** No, BIA recruits teams to prepare and present their entries at the stew challenge.

**Q: How many stew teams are there?**

**A:** BIA-Hawaii usually has between 12 and 15 stew teams but can accommodate more entries. Each team will serve small cups of their stew for sampling by guests. You can have more servings of your favorite stew.

**Q: Is there a competition for the best tasting stew? Who judges the stews?**

**A:** Yes, there is a competition for the stews with monetary prizes for the first three winners. There is also a prize for the "people's choice". BIA-Hawaii invites judges who may be professional chefs, food editors, people in charge of food service for a variety of organizations or anyone we know to be a true love of good food to be our judges.

**Q: Can only BIA-Hawaii members enter the contest?**

**A:** No, in 2008 the Department of Labor and Industrial Relations' Community Services office entered a unique stew. If you know of a group or office that wants to enter their famous stew, please let us know.

## About us:

### Good Jobs, Healthy Community Alliance of Hawai'i

Formed in 2010, The Good Jobs, Healthy Community Alliance of Hawai'i includes community leaders who vary in background and perspective but who have come together for a very specific purpose: to build power for working people in Hawai'i. Our shared values as residents, workers, professionals, students, and academics; as well as labor and faith-based organizations have brought us together. Our mission is to address the growing inequalities and poverty in Hawai'i by promoting living wages, affordable housing, environmental stewardship, and respect for diverse individuals, family units, and communities.

We actively seek practical and legislative solutions to provide a descent quality of life for the people of these islands. Our alliance has come together to promote healthy communities where families have; more time together, youth have a voice, access to justice, engaged participation in electoral politics, and a community where we are engaged in responsible development of our precious islands.

### UNITE HERE! Local 5

From the earliest days of Hawaii's hospitality industry, UNITE HERE! Local 5 has led Hawai'i hotel, health care and food service workers in the fight for good, secure jobs with a future in an industry where most workers around the world work below the poverty line. As Hawaii's service industry has grown in size and importance in Hawaii's economy, Local 5's role has been increasingly vital over the years to the economic health of our entire state, setting high standards for wages and benefits that help drive better conditions for all Hawaii workers.

Throughout its history, Local 5 has maintained a reputation for aggressive advocacy and powerful servicing on behalf of its members. That reputation for building power has enabled Local 5 to grow from a few hundred members up to a current membership of nearly 11,000, over 1,700 of which are health care workers employed by Kaiser Permanente.

# Hillsdale College

Hillsdale College enrolls approximately 1,300 students and offers a nationally recognized liberal arts curriculum. From its founding in 1844, Hillsdale has understood, better than any other American institution of higher learning, the relationship between education and freedom.

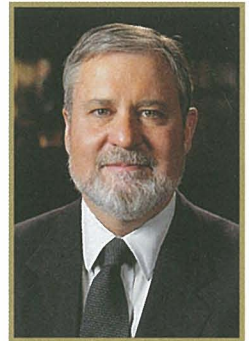

It is distinguished by its large and rigorous core curriculum and by its principled determination to maintain its independence by refusing to accept federal or state taxpayer subsidies.

Hillsdale College promotes the principles of limited constitutional government nationwide through the publication of *Imprimis*, a monthly speech digest with a circulation of over 1.8 million, through the Allan P. Kirby, Jr. Center for Constitutional Studies and Citizenship in Washington, D.C., and through seminar programs such as the Center for Constructive Alternatives, National Leadership Seminars, the Ludwig von Mises Lectures, the Hoogland Center for Teacher Excellence, and the Sherlock Hibbs Hillsdale Hostels.

Hillsdale invites you to learn more about the College and about our country by attending these programs and other special events.

March 18, 2011

Members of the State of Hawaii Legislature:

In connection with Pacific Resource Partnership's (PRP) recent invitation to you for the reception for U.S. Secretary of Transportation Ray La Hood, on Tuesday, March 22, 2011 at the Hilton Hawaiian Village Beach Resort & Spa, and based on several inquiries we have received from legislators, we had our legal counsel contact the State Ethics Commission's Executive Director. Mr. Kondo, who graciously took the time to discuss this matter on short notice, informed our legal counsel that he believed that the State Ethics Code would only permit legislators who fell within a "protocol" designation to attend without payment, unless a specific legislator could establish a State benefit. He stated he was willing to discuss this matter with individual legislators.

Although we wanted to provide the unique opportunity to hear a ranking U.S. Government official to all legislators without charge, PRP has been advised that this may raise issues with H.R.S. Section 84-11. To assist you in participating at this event, PRP has determined that the fair value for the cost of food at the reception is \$36.75, and if this was paid by you to PRP, we believe your attendance would not raise issues with H.R.S. Section 84-11 since you would not be receiving a "gift."

We regret this unfortunate situation but PRP believes that this option will nullify the perception issue that was highlighted in recent legislative hearings.

PRP again wishes to extend our invitation for your consideration with the additional information that was obtain in our conversation with Mr. Kondo. If you have any questions, please call Jill Baptist at 528-5557, ext. 2.

Sincerely,

John White  
Executive Director

Aloha! We are inviting you to join us for a dinner celebrating the completion of the Eighth Social Work in Hawai'i Seminar on Friday, March 4, 2011 from 5:30 to 9:00 p.m. in the Leahi Ballroom at the Waikiki Beach Marriott Resort and Spa. The University of Hawai'i at Mānoa Myron B. A number of social services agencies and providers participate in this seminar that is designed for college students from Japan who are majoring in social work. The goal of our seminar is to plant seeds that will germinate into energy that has a positive impact on social work in Japan.

This year, 20 student-participants from 17 universities are participating in the three-week seminar that began on February 14, 2011. Over the course of the three-weeks they are being exposed to a number of themes presented by faculty of the School of Social Work and practioners including Gerontology, Social Policy, Social Justice, Diversity, Cross-cultural Awareness, Advocacy, Domestic Abuse, Palliative Care, Hospice, and social work practices. Field trips to several social service agencies in the community are also a part of the seminar. More importantly, the student-participants are being continually exposed to the culture of Hawaii and the spirit of *Aloha* and *'Ohana*.

Participants of the seminar – past and present – have made spectacular progress in the wonderful environment of Hawai'i with the spirit of *Aloha* and the feeling of *'Ohana* serving as a lasting bridge between borders, languages, cultures and customs. Many of this year's student-participants will one day become leaders in the next generation of social work in Japan and will be taking home with them the warm-hearted feelings that will lead them to serve others by *Sharing Aloha and Building 'Ohana!*

We are inviting you to see just how much our student-participants have been able to learn in three-short weeks and are inviting you to join their *'Ohana* so that the seeds that they plant now may someday germinate into something wonderful that will positively impact social work in Japan and throughout the world.

We hope you will join these students and us for a night that culminates in the completion of one phase of their learning and the beginning of a completely new adventure for them.

Mahalo and Aloha,
